

Our Core Supply Chain Solution

High Quality Data is the most critical ingredient to successful Digital Transformation

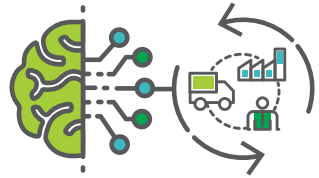

We engineer the best Data Lakes using AI and ML to treat, clean and store the right data

AI-ENABLED MASTER DATA MANAGEMENT

Based on our Optimizer™ Accelerator, DICT.ai brings Forecasting Excellence and Inventory Control together as concurrent requisites for Digital Transformation

DEMAND AND INVENTORY CONTROL TOWER

Based on our Watchtower™ accelerator, E2E Orchestration helps isolate anomalies in KPIs, Root causes them and recommends an optimal course of action for Planners across the SC

AI-DRIVEN E2E SUPPLY CHAIN ORCHESTRATION

INTELLIGENT AUTOMATION OF SUPPLY CHAIN PROCESSES

ML and AI technologies have re-contextualized Automation in the Supply Chain

We bring the most up-to-date frameworks for Application Development of complex Workflow systems
